

Square D Energy Center

The award-winning, all-in-one smart electrical panel that makes adding solar, storage, electric vehicles, and generators fast and easy

The smartest electrical panel on the market

Designed with evolving residential energy needs in mind, the Square D™ Energy Center smart panel significantly simplifies adding solar, EV charging, storage, and generators – bringing you into today’s smart home market.

- Solar ready
- Backup power ready
- Equipped for future storage and PV capacity additions after install
- Manufactured by the trusted leader in residential energy management
- A foundation for faster solar and storage installations
- Extra room makes wiring more comfortable and allows for the addition of smart relays and contactors

Six functions, one smart panel

Traditional Solar + Storage Installation Footprint

Life Is On

Accept no alternative for alternative energy

Square D Energy Center’s intuitive architecture is built to manage current and future alternative energy sources — and to speed up installation.

- Compatible with
- Leading solar inverters
 - Any storage, including SolarEdge, LG Chem, Tesla, and SunPower

Connecting homeowners to their energy usage

Each Square D Energy Center comes with an integrated Wiser Energy smart home monitor, which gives homeowners real-time access to their energy usage via the Square D edition of the Sense app so they can make wiser decisions about saving energy.

Square D Energy Center lets homeowners:

- Make informed decisions to reduce their energy consumption
- Control smart relays and wiring devices
- Monitor multiple loads on a single circuit
